## Reasons For Allowance

The following is an examiner's statement of reasons for allowance:

Claim 1 is allowed because the prior art of record including **Merlato et al**, singly or in combination failed to teach or suggest an optical signal transmitter device, having a base plate, at least two light elements located on said base plate in a configuration for solely defining a specific predetermined emission characteristic or a light density distribution, said light elements selected from the group consisting of SMT- compatible LEDS and LED semiconductor bodies fitted directly to said base plate, and a condenser configured on an optical axis at a fixed distance away from said light elements for projecting light emitted from said light elements to infinity.

Claims 2-7, and 18 are allowed because being depended on base claim 1.

Claim 19 is allowed because the prior art of record including **Merlato et al**, singly or in combination failed to teach or suggest an optical signal transmitter device, having a base plate, at least two light elements located on said base, said light elements selected from the group consisting of SMT- compatible LEDS and LED semiconductor bodies fitted directly to said base plate, and a condenser configured on an optical axis at a fixed distance away from said light elements for projecting light emitted from said light elements to infinity, and a scattering lens having optical characteristics at least one feature, selected from a group consisting of said configuration of the light elements and the optical characteristics of the scattering lens enabling a specific predetermined emission characteristic or a light density distribution.

Claims 20-25, and 29-35 are allowed because being depended on base claim 19.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
